## TECHNICAL SKILLS

---

**Languages:** Java, Python, C, MySQL, JavaScript, HTML/CSS

**Frameworks:** React, Redux, Tailwind CSS, API, Firebase

**Developer Tools:** Git, Linux CLI, Bash shell, VS Code, IntelliJ,

## PROJECTS

---

**NetflixGPT** | *ReactJS, Redux, Tailwind, OpenAI API, Firebase Authentication, Git* | [Code Link](#) 2023

- Developed "Netflix GPT" React app using create-react-app, seamlessly integrating OpenAI API for movie recommendations based on user prompts.
- Implemented Firebase authentication to enhance user experience by providing personalized features and securing user data.
- Utilized Redux Toolkit for efficient state management, ensuring a smooth and predictable flow of data throughout the application.
- Designed a responsive and visually appealing user interface using Tailwind CSS, enhancing the app's aesthetic appeal and ensuring optimal user experience on various devices

**Food Hub** | *ReactJS, Redux, Tailwind, API, Git* | [Code Link](#) 2023

- Developed a responsive food ordering React website, FoodHub, integrating accordion menus, category filters, and live data fetched from Swiggy using Redux for seamless state management.
- Implemented a dynamic search feature, enhancing user experience by enabling efficient content discovery and integrating an intuitive add-to-cart functionality for streamlined ordering.
- Utilized Tailwind CSS to create a visually appealing and responsive design, ensuring a seamless and engaging interface for users across various devices.
- Enhanced application efficiency by leveraging React's component-based architecture, optimizing code for maintainability and scalability, resulting in a smooth and interactive user interface.

**Text Wizzard** | *React, Bootstrap, Git* | [Link](#) 2023

- Developed a React-based web app, Text Wizzard, transforming ordinary text into captivating, visually stunning creations.
- Empowered users with interactive features, including text reversal, letter case magic, and number wizardry.
- Leveraged Firebase for an enchanted cloud backend, enabling secure storage and sharing of magical creations.

## EDUCATION

---

**Maulana Abul Kalam Azad University of Technology** Kolkata, West Bengal

*Bachelor of Technology in Computer Science, Cyber Security including Blockchain* 2025

**Ram Krishna Inter College** Deoband, Uttar Pradesh

*Science* 2017

## AWARD AND CERTIFICATIONS

---

**DSA in JavaScript:** Freecodecamp

**Git, Bash Shell, Introduction of Blockchain and Cryptography:** Udemy
